ABOUT

Final-year International Finance student at Bahçeşehir University and COP31 Climate Ambassador. Through procurement, HR and Erasmus coordination roles, I have gained hands-on experience in supplier and stakeholder negotiations, process management, data validation and corporate communication. Through the Net Zero AVM Training Programme and the COP31 Türkiye Pavilion, I am building expertise in energy efficiency and the net-zero transition. With fluent English, strong intercultural skills and a collaborative mindset, I want to contribute to climate action, especially in sustainable procurement, climate finance and multi-stakeholder cooperation.
